

Develop the Future:

British Columbia Secondary School Scope of Work Contract

Develop the Future is a unique initiative designed to equip **secondary school students** (Grades 11/12) with essential digital competencies in full stack mobile app development, problem solving, and creative thinking. Delivered in a flexible format that aligns with BC's Applied Design, Skills, and Technologies curriculum, the program leverages coding resources from Apple on Mac and ready-to-use lessons and materials within Develop the Future's own learning cycle to enhance student achievement, engagement, and future-readiness. Through the program, students will design, build, and launch their own app with Swift (Xcode) to address a real-world challenge in their community.

Please select which option your district would like to move forward with:

Option	Number of Classes/Students	Semester Fee*	Cost Per Student	Discount Savings	Selection
A	1 Class, 30 students	\$1500	\$50	0%	☐
B	2 Classes, 60 students	\$2700	\$45	10%	☐
C	3 Classes, 90 students	\$3600	\$40	20%	☐
D	4 Classes, 120 students	\$4200	\$35	30%	☐

Core Learning Experiences

The Develop the Future's 16 week secondary school curriculum offering includes:

- Full stack approach that balances app design and coding, helping students see how front-end creativity and back-end logic come together
- Comprehensive resource package and program guide featuring Keynote files, step-by-step tutorials, SwiftUI lessons, exemplars, and practical tools to support both teachers and students

CEC Full Support Offering

CEC supports offered:

- "Train the Trainer" model to equip teachers to deliver Swift coding in the classroom
- Regular check-ins and support with CEC coordinator(s) to provide support for teachers and students throughout the program
- Ongoing professional development tailored to district needs, ensuring educators are equipped to guide students successfully

CEC experiences offered:

- Virtual (Live) Kick Off with Teachers
- Virtual (Live) Kick Off Experience – Profile Card Build in Xcode (Students + Teachers)
- 4 x Virtual (Live) Workshops with Apple Distinguished Educators (60–90 min.)
 - Keynote Fundamentals 1 (90 min)
 - Branding (60 min)
 - Presentation Skills (60 min)
 - Future Ready Skills (60 min)
- App Check in (Virtual or In-Person)
- App Showcase (Virtual or In-Person)

*CEC to pay APLP and ADE directly for workshop support.

Based on your district/classroom goals, you've selected _____.

(Write the option you selected on page 1)

And you've selected to:

☐ Pay total upfront

☐ Two instalments

The Career Education Council is a registered charity and cannot commence work until the Develop the Future contract is signed and the fee is paid.
